## Profile

Dynamic and result-driven Frontend engineer with a strong combination of technical ability and creativity. Bringing over 4years of experience in developing seamless, efficient and user-centric web and mobile applications. Expert in leveraging cutting-edge Java-script frameworks such as React and React Native. Demonstrated success in translating client requirement into elegant functional designs and delivering high-quality maintainable code. Committed to driving user satisfaction and enhancing the overall user experience

## Professional Experience

### Frontend Engineer, *Soft Structures.*

02/2023 – present | Lagos, Nigeria

Built a robust innovative Career (Scout4Job) platform which attracted about twenty thousand users in its first three month of soft launch.

- Collaborated closely with back-end developers and ui/ux designers to improve usability and ensure the seamless integration and interaction of web elements.
- Built an admin platform to monitor and control the analytics of everything that has to do with scout4job and it's business side, which improved companies overview of the platform and increased efficiency of the app by a 100 percent.
- Built various web pages with regards to other projects like a collaborative career building partner(WLB) increasing their online presence and their customer rating by 40%.
- Built a Scout4Job Business platform which allows users upload business profiles and ads on the general scout4job platform, which was also a source of income for the platform.

As a co-frontend engineer on NEURMS, a leading CRM application transforming customer and sales management, I contributed to driving significant growth. Collaborating on strategic initiatives, I played a key role in improving customer satisfaction and ratings. Through practical enhancements and user-focused features, Neurms optimized internal processes and attracted new clients, resulting in increased customer acquisitions.

- Implemented frontend enhancements and optimizations within Neurms application, resulting in improved user experience and streamlined workflows.
- Collaborated with the frontend development team to identify and address user pain points, leading to tangible improvements in customer satisfaction metrics.

- Introduced innovative features and functionalities to Neurms' frontend interface, enhancing client engagement and driving positive feedback from users.

#### **Frontend Developer, Ndali**

06/2022 – 01/2023 | Lagos, Nigeria

- Developed and maintained user-friendly web pages for the company's food ordering platform, enhancing the customer experience and improving order completion rates.
- Utilized JavaScript, HTML, and CSS to implement responsive designs, ensuring the platform functioned effectively across various devices and browsers.
- Leveraged API's to integrate the front-end application with back-end services, enabling real-time menu updates, order tracking, and payment processing.
- Regularly tested the website across different browsers and devices to identify and fix any compatibility issues.
- Kept up-to-date with the latest industry trends and technologies, applying this knowledge to drive innovation in the company's web development practices.

#### **Frontend Developer, Paybuymax tech**

01/2021 – 05/2022 | Lagos, Nigeria

- Collaborated closely with back-end developers and web designers to improve usability and ensure the seamless integration of front-end elements with server-side logic.
- Implemented responsive design principles to ensure the website functioned effectively across various devices and browsers.
- Utilized modern JavaScript libraries and frameworks, such as React and Next Js to build interfaces
- Stayed updated on industry trends and emerging technologies, applying this knowledge to drive innovation at PayBuyMax.
- Worked in an Agile development environment, contributing to sprint planning, stand-ups, and retrospectives.

#### **Web developer, Smartfarm Tech**

09/2019 – 04/2020 | River state, Nigeria

- Assisted in the development and design of the company's website, working closely with a team of experienced developers.
- Utilized front-end technologies like HTML, CSS, and JavaScript to create intuitive and responsive user interfaces.
- Collaborated with back-end developers to integrate front-end elements with server-side logic, ensuring seamless functionality.
- Participated in the full software development lifecycle, including requirement analysis, development, testing, and maintenance.
- Worked with the team to ensure the website is responsive and works well across various devices and browsers.
- Continually updated technical knowledge and skills by attending in-house and external courses, reading manuals and accessing new applications.

#### **Undergraduate Intern, Lafarge Plc**

01/2017 – 06/2017 | Sagamu, Nigeria

- Assisted in maintaining hardware, software, and other systems to ensure optimal performance.
- Collaborated with the IT team to troubleshoot issues and provide technical support to end-users.
- Participated in regular team meetings and contributed to IT strategy discussions and planning.
- Understood health and safety rules and guidelines with respect to the electrical department, IT department and the company at large
